

The Labyrinth at ColdspringNewtown

Come join your neighbors in constructing a community Labyrinth.

What is a Labyrinth you ask?

The Labyrinth is a single path spiral-walking course that leads one into the center and back out again. There are no dead ends or false turns like in a maze.

The Labyrinth will provide Coldspring and its neighbors with a peaceful, meditative walking space. Labyrinths have served for thousands of years in many world cultures as symbols of hope, healing and spirit. Many who walk these paths say they discover a sense of deep peace and hope.

The Labyrinth at Coldspring is sponsored in part by Comcast and the City of Baltimore and initiated by CCA in order to provide a cultural enhancement to our neighborhood while promoting community involvement.

The Labyrinth will be painted on the non-operational basketball court next to the ball field and the project will be presented to the community at the Coldspring Community Concert on Friday, Sept. 5th. We hope that this will be the first of several improvements that we can make in our community using community volunteers and assistance from other community partners both in and out of the neighborhood.

We will be initiating the project on August 16, 2008. All interested in participating in this exciting project can contact Paul Trattner at 410-664-6240 by August 13th for more details. We would encourage you and your family to be a part of this community project.
